- Drag and drop integration. Just add the green screen!
- High Definition - (2) HD & (2) SD files are included. See resolutions below.
- Specialized sets for: broadcast, education, house of worship and sales/marketing

Stained Glass Church

This is a perfect intimate background for delivering impactful messages. This stained glass church includes beautiful reflections between traditional pews.

Resolution: 2895x2368

Cathedral Podium

This large Cathedral view easily zooms into a up close and personal view of your talent. Perfect for delivery powerful messages and recordings.

Resolution: 3000x1688

Small Church

This small church is set at a angle with a podium for delivering message. This is ideal for community updates. Easily replace with custom image.

Resolution: 1200x799

Outdoor Mural

This beautiful scene is perfect for educational recordings and includes a beautiful mural. Talent is placed at a desk for formal educational sessions.

Resolution: 1200x799

Effortless professional broadcasting

multi-purpose: community announcements, professional recordings, outreach programs...

Each high resolution virtual set includes the ability to zoom in and capture various views. These virtual sets can easily be used with vMix or WireCast.

Once you have selected your "talent" layer it will appear in front of the background and behind the foreground (podium.)

You can set different camera views to slowly pan into your subject. The stained glass window is perfect starting point for a live broadcast or recording.

Switching between camera viewpoints will be as easy as clicking a button in vMix or WireCast.

FAQ Section

Frequently Asked Questions:

Will these virtual sets work with my system?

Our virtual sets will work with most major video editing and live streaming solutions including: Adobe After Effects, Avid, Final Cut Pro, NewTek Virtual Set Editor, WireCast and vMix. You can download our free files (with a watermark at www.ptzoptics.com)

Will these virtual sets work with WireCast?

Yes, these virtual sets include everything you need to use WireCast's built in virtual set manager. See our setup instructions here.

Will these virtual sets work with vMix?

Yes, these virtual sets include custom configuration files for vMix. See our setup instructions here.

Will these virtual sets work with a NewTek TriCaster?

Yes, but these are not 3D images rather 2D images with a Alpha channel. You will need the NewTek Virtual Set Editor with a XD TriCaster model. See our setup instructions here.

Will I be able to download these files immediately?

The virtual sets will be emailed same day Mon-Fri 9AM-5PM EST outside national USA holidays.

Do I also get a CD or DVD?

No. These are available as a digital download only.

Can I change the logos on the virtual sets?

Yes, you may use an editing software such as Adobe Photoshop to add logos to both background and foreground items. Once you have made your changes simply replace the stock file with your rebranded version in vMix or WireCast. If you are using a NewTek TriCaster you can use the TriCaster Virtual Set Editor.

Do I have to use a green screen?

Technically no but we highly suggest it. Most customers use either green or blue. For the full effect a green/blue screen and chroma key will be required.

What type of license for use is included?

These virtual sets may be used by you or one client, in a single end product. Therefore they may not be resold. They may be used for live streaming or recording original content by one client or end user.

Are these virtual sets HD or SD?

These virtual sets are HD meaning at least 2500 x 1850 pixels allowing for ample zooming without image pixelation for a 1920x1080 broadcast.

Are instructions included?

Yes. PTZOptics provides a instructional PDF with each digital download. We also include various demonstration videos for working with vMix, WireCast and NewTek TriCasters.
