Minimum Requirements for using custom PC with Producer & Producer+ Kits

Producer Kit

- Two (2) USB 3.0 Ports
  - These are for the two (2) SDI to USB converters
  - These two (2) USB ports must be on discrete USB 3.0 host chipsets per port OR be using a single USB 3.1 host chipset
- Three (3) USB 2.0 / 3.0 Port(s)
  - These are for the keyboard, mouse and Shure Audio Input
- Quad Core Processor
  - 8 threads
  - Base Frequency of 2.6 GHz
  - 6 MB of Cache
- 16 GB of RAM
  - DDR4
- SSD (Solid State Drive)
- Windows 10 Pro or Enterprise

If planning on using more than 2 cameras, use the specifications of the Producer+ Kit

Producer+ Kit

- One Thunderbolt 3 Connection
  - For external Quad SDI Input
- Three (3) USB 2.0 / 3.0 Port(s)
  - These are for the keyboard, mouse and Shure Audio Input
- Quad Core Processor
  - 8 threads
  - Base Frequency of 2.6 GHz
  - 6 MB of Cache
- 16 GB of RAM
  - DDR4
- SSD (Solid State Drive)
- Windows 10 Pro or Enterprise
